

The Skatecam

Wake up in the morning light
Sun sipping the morning dew
Tie your shoes on nice and tight
Third pair so far this year you've burnt right through
Pack the gear with care
Got a long and busy day
Camera's rolling, breathing air
Push off on the board and ride away

Get on the Skatecam

Traffic in the street is thick
Speeding all day downtown
Crowded sidewalk? Here's a trick
The mobile jib is up, looking all around
Seen that steadycam
Smooth tracking up to 35
See an unexpected thing
360° swinging spin into a glide

You got to take this ride
Get on while you can
Get on the Skatecam

From the sunny west coast side
Rocky Mountains back home
To the busy Spanish streets
Where you never really seem to be alone
When you're out again
Keep your eyes peeled, good and wide
Might just see him swerving in
He'll Focus in on you while he's passing by

You got to take this ride
Get on while you can
Never seen nothing like Skatecam
